

## Explanatory notes on the distribution matrix 2024

Periodically, extensive research is conducted on behalf of Stichting Reprorecht to gain insight in the reproduction of copyright protected works by Dutch businesses, government institutions, and educational institutions. The outcomes of this research are used to update the distribution matrix. Stichting Reprorecht uses this matrix to assign the total amount of fees available for distribution to the different categories of published works.

Below you will find the updated 2024 distribution matrix.

	BUSINESS	EDUCATION	GOVERNMENT
<b>Step 1</b>			
<u>Dutch / Foreign rights holders</u>			
Dutch rights holders	89,35%	94,04%	90,20%
